

CSB Battery Co., Ltd. blev etableret i 1987, og som en førende global producent af ventilregulerede blysyre (VRLA) batterier bruges CSB produkter i over 100 lande til telekommunikation, UPS (uafbrudt strømforsyning), solceller, vindkraft, nødbelysning, Alarm & sikkerhed og andre applikationer.

En af de vigtigste faktorer, der driver virksomhedens fortsatte vækst, er et verdensomspændende distributionsnetværk og den konsekvente kvalitet af produkter. Alle CSB-batterier er genopladelige, yderst effektive, lækagesikre og vedligeholdelsesfrie, certificeret af ISO og UL. Med stærkt netværkssamarbejder udvikles næste generations VRLA -produkter og udvides produkt sortiment løbende. Sortiment dækker over Eurobatt class 3-5års, 6-9års, 12+, High current, High Cycle, long standby, Extreme temperatures etc.

GP Series is a general purpose battery with a design life up to 5 years in standby service. Capacity range is from 4.5Ah to 100Ah of 6V or 12V battery, and all are rechargeable, highly efficient, leak proof and maintenance free.

GPL Series is a general purpose and long life battery with a design life up to 8~10 years in standby service. Capacity range is from 7.2Ah to 100Ah of 12V battery, and all are rechargeable, highly efficient, leak proof and maintenance free.

HR Series specially designs for high efficient discharge application. Its characteristics are smaller volume, lightweight and high discharge efficiency with a design life up to 5 years in standby service. Capacity range is from 18W/cell to 120W/cell of 12V battery for 15min-rate, and all are rechargeable, highly efficient, leak proof and maintenance free.

HRL Series is a high rate discharge and long life battery with a design life up to 8~10 years in standby service. Capacity range is from 10W/cell to 540W/cell of 6V or 12V battery for 15min-rate, and all are rechargeable, highly efficient, leak proof and maintenance free

XPL Series is an extreme high rate discharge and long life battery with a design life up to 10 years in standby service. Capacity range is from 5700W to 6700W of 12V battery for 5min-rate, and all are rechargeable, highly efficient, leak proof and maintenance free.

XHRL Series is an extreme high rate discharge and long life battery with a design life up to 10 years in standby service. Capacity range is from 360W/cell to 620W/cell of 12V battery for 15min-rate, and all are rechargeable, highly efficient, leak proof and maintenance free

UPS Series specially designs for high efficient discharge application. It uses the latest wafer-thin plate technology to provide optimum high-rate performance with a design life up to 5 years in standby service. Capacity range is from 240W/battery to 580W/battery of 12V battery for 5min-rate, and all are rechargeable, highly efficient, leak proof and maintenance free.

TPL Series specially designs for telecom application. Its characteristics are front terminal design, smaller volume, and lightweight with a design life up to 12 years in standby service. Capacity range is from 80Ah to 150Ah of 12V battery for 8hour-rate, and all are rechargeable, highly efficient, leak proof and maintenance free.

EVX Series is specially designed for efficient discharges in cyclical applications. The EVX series can serve more than 400 cycles at 100% discharge. Capacity range is from 7.2Ah to 75Ah of 12V battery, and all are rechargeable, highly efficient, leak proof and maintenance free.

MSJ Series is a very long service life battery with a design life up to 20 years in standby service. Capacity range is from 150Ah to 1000Ah of 2V battery, and all are rechargeable, highly efficient, leak proof and maintenance free.
